

NewEra Metal Resources Ltd

NewEra Metal Resources files 1st stage environmental reports at La Valenciana, Los Castanos and Mallin Largo vanadium projects, Argentina.

14 December 2021 – Bromborough (UK): NewEra Metal Resources Ltd (the “Company” or “NewEra”) is pleased to announce the filing of first stage environmental reports at its La Valenciana, Los Castanos and Mallin Largo vanadium projects in the Malargue Department, Mendoza Province, west-central Argentina.

These reports cover both cateo applications at La Valenciana and one cateo application at each of the Los Castanos and Mallin Largo projects.

Approval of these reports will allow surface, non-disturbance exploration, i.e., mapping and sampling to commence in the 2022 field season.
